Optimize Card

Goal:

Refine the draft to resolve conflicts and improve fidelity.

Participant Activity:

- Participants with voice cards review draft ER model and discuss togeather with technical expert if their voices are reflected well.
- Facilitator takes notes about invisible entities intentionally avoided from representation in ER model.
- Participants confirm that the final ER model reflects all voices.

Facilitator Prompts:

- "Does this relationship preserve every voice's key concerns?"
- "Where is each voice represented in the final model?"
- "Are any voices excluded or marginalized?"

Artifacts/Outputs:

- Polished ER model.
- Decision log for changes.

Validation Check:

Model integrity across entities and relationships; no *unchecked conflicts*.
