Role Card: **Librarian (Voice of Control & Accuracy)**

Role Name: Librarian
VOICE:
"I need accurate, real-time information to manage the collection."
Primary Concerns:
- Tracking book status (available, borrowed, overdue, lost, damaged)
- Knowing who borrowed what and when it's due
- Managing responsibility over specific sections
- Quickly answering operational questions

What You Advocate For:
- Clear status tracking for every book
- Assignment of librarians to sections or categories
- Instant statistics (e.g., how many books are borrowed now)
- Proper handling of exceptions (lost, damaged, inactive members)

Key Questions You Raise:
- Where is this book right now?
- Who is responsible for this section?
- How many books are currently overdue or lost?

Validation Check:
Does the system represent book status, location, and librarian responsibility for each section?
