Nurture Card

Goal:

Support articulation and expansion of participant insights into conceptual relationships. Encourage respectful listening and cross-role empathy.

Participant Activity:

- Translate narratives into candidate entities and relationships.
- Draw or use visual elements (circles/squates/lines/arrows) to visualise conceptual data model

Facilitator Prompts:

- "What are the key concepts/objects/people/entities?"
- "What relationships connect it all?"
- "How each voice contributes to the conceptual data model?"

Artifacts/Outputs:

- Draft entity/relationship clusters via free form visual vocabulary.

Validation Check:

Candidate entities have *at least one defining relationship* and each role sees *one priority reflected*.
